

Biographical Sketch or Vita (optional)

An optional brief vita (or biographical sketch in narrative form) may be included as the last page of the thesis. Format the main heading like other main headings and limit the length to **one** page. The text on this page should contain only limited personal information (name, date, and place of birth), in addition to professional details: degree(s) awarded (degree, year, institution), honors and awards, professional experience, and professional publications. If it is in outline form, the information may be single spaced with extra space left between categories.

Biographical sketch (narrative form)
