Department of Economics
Ph.D. Policies and Procedures
Introduction

The Department of Economics at Iowa State University provides a unique opportunity for students to obtain quality graduate education through course instruction, workshops, seminars, research and interaction with world-class scholars. As a major part of graduate education, each student chooses a major professor who is a mentor and guide for graduate work. The major professor along with the Program of Study (POS) Committee provides specific direction for an individual student's graduate program and research. The following guidelines will help the student, in conjunction with his/her POS Committee, plan a graduate program that will lead to the desired degree and career path in a timely and efficient manner while meeting all departmental and university requirements. These guidelines are approved by the economics faculty as a whole and should be interpreted as minimum standards. Individual POS committees may choose additional coursework or other requirements to meet the needs of a given student or research topic.

The Department of Economics has implemented these policies and procedures in accordance with the policies and procedures outlined by the Graduate College Handbook. It is strongly recommended that students and faculty review the Graduate College Handbook (located on the Graduate College website) to gain a comprehensive understanding of the requirements for earning a graduate degree from Iowa State University.

Ph.D. Degree Requirements

Majors

1. Students majoring in Economics, in addition to completing the requirements outlined in the Ph.D. Credit Requirements section, must choose their two required fields of concentration from among the fields of a) Agricultural Economics, b) Environmental and Resource Economics, c) Financial Economics, d) Industrial Organization, e) International Economics, f) Labor/Public Economics, and g) Macroeconomics. Applied Econometrics is available as a third field.

2. Students majoring in Agricultural Economics, in addition to completing the requirements outlined in the Ph.D. Credit Requirements section, must choose at least one of their two required fields of concentration from either a) Agricultural Economics or b) Environmental and Resource Economics.

3. Students must choose to major in either economics or agricultural economics. They may not major in both areas. Students majoring in economics may not obtain a minor in agricultural economics. Similarly, students majoring in agricultural economics may not obtain a minor in economics.

Ph.D. Credit Requirements

1. A total of 72 credits is required. These credits must be graduate credits (500 & 600 level) except that, with POSC approval, up to 9 credits of 300 & 400 level classes at Iowa State (not undergraduate courses from other institutions) will be eligible. Undergraduate classes in Economics may not be used. At most, 3 credits at the 300-level may be used.

2. The material covered in Economics 601, 602, 603, and 604 forms a basis for the Departmental Qualifying Examinations in Economic Theory. Economics 671 and 672 (Econometrics) are also required in the first year of the program.

3. Students are required to complete at least seven field graduate courses in economics beyond the Ph.D. core (601, 602, 603, 604, 671, 672). Field courses must comprise at least two fields of concentration other than Applied Econometrics.

4. Students must successfully complete Econ 694A and Econ 694B.

5. Three semester hours in Economics 691 are earned in conjunction with the third year paper.

6. A minimum of 18 hours must be earned as a combination of the following credits:
   - Research credits (Econ 699)
   - Credits earned in special topics courses (Economics 690)
   - Additional graduate-level coursework

Major Professor

The major professor, who must be a member of the graduate faculty in the student's declared major, serves as chair of the POS committee. The choice of a Major Professor represents an agreement between the graduate student and the professor to work together in planning academic studies and research for an advanced degree. Students should give this matter careful consideration, exploring conscientiously the available options as to major, research specialty and research group.
Program of Study Committee (POSC)

1. **Committee appointment:** In consultation with the student's major professor, a Program of Study Committee (POS) consisting of at least five members of the graduate faculty is appointed. At least three committee members must be from the student's major. One committee member should be from outside the Economics Department.

2. **Program of Study:** In consultation with the student's Program of Study Committee (POSC), an official Program of Study (POS) is developed listing all the classes the student will complete in order to obtain the desired degree. Appointment of committee members and determination of the POS is accomplished by filing the POSC form through AccessPlus. Details regarding the process for filing this form are available on the Graduate College website. Students should approve a major professor by **October 1** of their third year in the Ph.D. program. The rest of the POS committee should be selected by **December 1** of the third year and the POSC form should be filed. The POSC form must be approved by the Graduate College at least one semester before the preliminary oral is held.

Qualifying Examinations in Economic Theory

Written qualifying examinations in microeconomic theory and macroeconomic theory are required. Each student in the Ph.D. program must pass two qualifying exams in economic theory (one in microeconomics and one in macroeconomics). Students are allowed two attempts to pass each exam. Students who have failed to pass both qualifying exams will not be admitted to candidacy and will be given the option of completing a Master’s degree or leaving the program. If a student chooses not to attempt a given examination at the time it is offered, the student will be given a failing grade on the examination.

1. **The Examining Committee:** Each qualifying examination committee shall be composed of three members, at least one of whom shall be from the relevant theory teaching core. Each committee will be appointed by the Department Chair and will serve for one year.

2. **Purposes and Goals of the Examinations:** The purposes and goals of the written qualifying examinations are to help ensure that each student who receives a Ph.D. from the department is thoroughly trained in the basic core of economic theory and to provide an incentive for the student to review, integrate, and apply his/her economic theory training.

3. **Scheduling of the Examinations:** Students must take the examinations at the times outlined. The examinations are administered during the summer session following the first year on the Ph.D. track. The first attempt of the microeconomics examination will be given on the third Friday following Spring Commencement in odd numbered calendar years and the Tuesday following the third Friday following Spring Commencement in even numbered calendar years. The first attempt of the macroeconomics examination will be given on the third Friday following Spring Commencement in odd numbered calendar years and the Tuesday following the third Friday following Spring Commencement in even numbered calendar years.

   The second attempt, should it be needed, of the microeconomics examination will be given on the Monday one week before classes begin for the fall semester in odd numbered calendar years and on the Friday immediately before classes begin for the fall semester in even numbered calendar years. The second attempt of the macroeconomics examination will be given on the Friday immediately before classes begin for the fall semester in odd numbered calendar years and on the Monday one week before classes begin for the fall semester in even numbered calendar years.

4. **Form of the examinations:** For each examination, students will be allowed a total of six hours. These hours will be divided into two blocks: a four-hour morning session and a two-hour afternoon session. In the morning session, students will be asked to answer two out of at least three questions. In the afternoon session, students will be asked to answer one out of one or more questions. Questions that appear in the morning session cannot be used in the afternoon session.

5. **Material to be covered in the examinations:** Questions on the qualifying examinations will cover material from the current topic outlines in economic theory. This outline encompasses the general subject matter of microeconomic and macroeconomic theory appropriate for study by beginning Ph.D. students. The graduate courses, Econ 601, Econ 602, Econ 603 and Econ 604 will cover the majority of topics on this outline and the syllabi for these courses are a useful reference for the examinations. Students will be provided information regarding their ability to pass the theory qualifying examinations through their performance in the relevant theory courses. Specifically, instructors of the relevant theory courses will assign grades of B+ or higher only to those students who have done work of sufficient quality to suggest that they will be able to pass the corresponding examination.

6. **Grading of the examinations:** Each examination will be evaluated separately, and a grade of "Pass with Distinction", "Pass", or "Fail" will be assigned. The examining committee will complete the grading of the examinations as soon as possible. In no case will the results of the first round of examinations be returned later.
than June 30. Should June 30 fall on a weekend, results will be returned no later than the Friday preceding June
30. In no case will the results of the second round of the examinations be returned more than four weeks after the
examination is given. The Director of Graduate Education will present the overall results of the examinations to the
earliest possible faculty meeting. An answer outline for each qualifying examination shall be available for student
use no later than four weeks after the date of the examination.

7. **Appeal Process:** If asked to do so, the chair of the examining committee will meet on an individualized basis with
students after the examination results are released to discuss the examinations. If, after these meetings and within
2 weeks of the date the results of the examination are returned, a student is dissatisfied with the grading of his/her
examination, the student may notify the Department Chair that he/she wishes to appeal the results of the
examination. The student's written defense of the examination paper must accompany this notification.

The student's written defense will then be given to the original examining committee for its consideration. If the
original examining committee judges that the student's arguments are reasonable, the committee may reverse its
original decision and change the grade from failing to passing. If the original examining committee does not
reverse its original decision, it will write a defense of its original decision and will present this to the student and the
Chair.

If the student still feels that he/she has a grievance after the examining committee has reconsidered its original
decision, a further appeal procedure is available in the Graduate College, as described in the Graduate College
Handbook. [https://www.grad-college.iastate.edu/handbook/](https://www.grad-college.iastate.edu/handbook/)

8. **Petition Process:** A student who has failed to pass either the Microeconomics or Macroeconomics Qualifying
examination in two attempts will have the option of petitioning the Chair to allow him/her to take the examination in
question one additional time. The student will have 2 weeks from the time that the examination result is returned to
initiate the process. If the student has appealed the decision and lost that appeal, he/she will have 2 weeks from
the date of the appeal decision to start the petition process. Within 4 weeks from the time the petition is filed, the
Chair will then make one of the following decisions:

- The student will be removed from the Ph.D. program; or
- The student will be permitted to take the next offering of the relevant qualifying examination. No
  further petition will be allowed.

The Chair will grant the petition only under exceptional circumstances that were responsible for the
student's substandard performance on the relevant qualifying exam.

**Field of Concentration Requirements**

Mastery of two fields of concentration is required. Mastery in each field of concentration in the Department of
Economics is demonstrated by completion of coursework requirements for that field. Fields of Concentration in the
Department of Economics are chosen from: Agricultural Economics, Applied Econometrics (available as a 3rd field
only), Environmental and Resource Economics, Financial Economics, Industrial Organization, International Economics,
Labor and Public Economics, and Macroeconomics. ([see Appendix A](#))

**Third Year Paper**

A formal research paper under the direction of the major professor is required during the third year of the Ph.D. track.
The purpose of the third year paper is to help ensure that each student who receives a Ph.D. from the department is
thoroughly familiar with the research process. This paper must be satisfactorily completed (fully approved by both the
major professor and a second reader) before the preliminary oral examination may be held.

1. **Timing of the Paper:** The paper should be submitted to the major professor and second reader by **May 1** of the
three year on the Ph.D. track. By **June 1** the two readers must either submit a passing grade or ask the student to
revise and resubmit the paper. A revision must be submitted by **July 15**. The readers will determine the final grade
by **August 1**. Failure to meet this requirement will result in a loss of funding for the fall semester. Funding can be
reinstated in the spring semester contingent upon successfully completing the third year paper by **December 1**.
Once students have satisfactorily completed the third year paper, they will receive an increase in their
assistantship stipend.

2. **Evaluation of the Paper:** The third year paper will be evaluated by **two** faculty members, including the student's
major professor and one other faculty member (chosen by the student and approved by the major professor) on
the student's POSC. The paper shall be evaluated satisfactory/not satisfactory.

3. **Format of the Paper:** In general, the paper should address a topic/problem in the student's major field of study
that is likely to emerge as a component of the student's Ph.D. dissertation. However, the paper may be in a related
area, provided the two faculty members who evaluate the paper agree. Minimal expectations for the paper are that
A preliminary oral examination is required of all Ph.D. students and is administered by the student's POSC.

1. **Timing of the Exam:** The preliminary oral examination requires prior approval by the Graduate College. Students should file the electronic Preliminary or Final Oral Request form (available on the Graduate College website) at least two weeks before the date of the examination. The examination should be held no later than June 1 of the student's fourth year to be eligible for fall funding. Ideally, it should be held early enough in the student's research program that significant faculty input into the process can be obtained. Students are required to provide a copy of the proposal to each committee member at least two weeks before the preliminary oral examination. The preliminary oral must be completed at least six months prior to the final oral exam. Students are required to be registered for at least one graduate credit during the semester in which they complete their preliminary exam.

2. **Evaluation of the Exam:** While the exact nature of the preliminary oral examination depends on the POSC and the particular area of research, some general departmental guidelines apply. In all cases the student should be given clear direction regarding expectations well before preparing the dissertation proposal. The purpose of the examination is to rigorously test the student's knowledge of major, minor, and supporting subject areas relevant to the proposed dissertation topic, as well as the student's ability to analyze, organize, and present subject matter relevant to the field. The means of doing this is to consider the student's proposal for the economic research that will lead to the dissertation. While some questioning over general issues may occur, the bulk of the examination will concentrate on the dissertation topic.

3. **Format of the Exam:** The student should prepare a specific and well-documented proposal for research. The dissertation proposal consists of a statement of the problems to be considered, a review of the relevant literature, a consideration of theoretical models to analyze the problems, and a discussion of potential data and quantitative methods to be used in addressing the topic. If a three essay approach is chosen, the preliminary oral should consider the specific topic of each essay, along with basic models, data issues and quantitative methods to be used in addressing these topics. The first of the three essays should be complete or nearly complete before taking the preliminary oral examination. An appropriate literature review for the entire dissertation should be prepared.

The final oral examination requires prior approval by the Graduate College. Students should file the electronic Preliminary or Final Oral Request form (available on the Graduate College website) at least three weeks before the date of the examination. Students are required to provide a copy of the dissertation to each member of the POSC at least two weeks before the final oral examination. The first hour of a student's final oral exam is open to the public. Students are required to be registered for at least one graduate credit during the semester in which they complete their final oral exam. Deadlines for graduation are stipulated by the Graduate College and should be considered when scheduling the final oral exam.

A co-major, at the Ph.D. level, in economics or agricultural economics and another discipline requires the approval of the Director of Graduate Education. Students pursuing a co-major at the Ph.D. level must complete 72 credits. These credits must be graduate credits (500 & 600 level) except that, with POSC approval, up to 9 credits of 300 & 400 level classes at Iowa State (not undergraduate courses from other institutions) will be eligible. Undergraduate classes in economics may not be used. At most, 3 credits at the 300-level may be used.

1. Students are required to complete the Ph.D. core (Econ 601, 602, 603, 604, 671, 672) and pass the written qualifying examinations in microeconomic theory and macroeconomic theory.
2. Students are required to complete three graduate courses in economics beyond the Ph.D. core, comprising at least one field of concentration other than Applied Econometrics. These courses shall be at the 600 level, other than 690, 691 or 699, or shall be 500 level courses that are acceptable as part of a Ph.D. Field of Concentration. The student must demonstrate mastery of the elective field by completion of coursework requirements for that field.
3. A minimum of 9 of the 72 credits must be earned as research credits (699-numbered courses, with the “Econ” or other designator) in connection with the preparation of a Ph.D. dissertation deemed, by the POSC, to be
acceptable as a Ph.D. dissertation in the discipline of economics. A maximum of 21 credits of 699-numbered courses may count toward the required 72.

4. Co-major students face the same credit hour restrictions that are detailed under the Ph.D. Credit Requirements.

5. Co-major students face the same preliminary oral examination and final oral examination requirements.

Minor Requirements

Students wishing to complete a graduate minor in Economics are required to have at least 9 hours of formal coursework in economics courses. These courses must be at the 300-level or above, excluding Econ 313, 334, 336, 337, 353, 362, 364, 370, 378, 380, 398, 490, 492, 495, 496, and 498. It is required that one of the courses be in microeconomic theory (Econ 301, Econ 401, or Econ 501). Per the Graduate College policy, there is a limit of 9 credits at the undergraduate level allowed on a student’s POS (including both major and minor courses). Of these 9, only 3 can be at the 300-level.

Grading of Ph.D. Graduate Courses

Graduate courses are usually graded on a letter grade basis (A-F). In all but exceptional cases, a grade of B- will serve as an adequate signal of unsatisfactory performance. Only grades of satisfactory/fail are given in the following classes: Econ 590, 599, 690, 691, 693, 694A/B, 699.

Course Expiration

Courses completed toward a Ph.D. in Economics or Agricultural Economics are valid for seven years. This aligns with the Graduate College’s policy for course time-to-degree limits. Requests to honor courses past the seven-year limit will be decided on a case-by-case basis by the Graduate College and the Economics Director of Graduate Education. If any courses older than seven years are included on a student’s POS, the student must submit the Expired Course Petition to the Graduate College for approval.

Annual Review of Graduate Students

Academic progress reports are issued to graduate students during the fall semester. Students should review the progress reports carefully to ensure that they are making normal academic progress and to prepare for upcoming academic deadlines.

Ph.D. Normal Progress Guidelines

Entry

All Ph.D. programs begin in the fall. The rare student who enters during the spring term will be officially entered into the Ph.D. program in the fall term of that calendar year and will face the same requirements for normal progress as the fall Ph.D. entrants of that year. Most students will enter the Ph.D. track in their first fall semester in the program. Some students will be advised to start with the 500-level core and postpone their entry to the Ph.D. track until fall of the second year. Students who start the Ph.D. program with the 500-level core will, for the first year, face the same normal progress requirements as students in the first year of the M.S. program.

First Year

Ph.D. students complete the microeconomic theory (Econ 601 and Econ 603), macroeconomic theory (Econ 602 and Econ 604) and econometrics (Econ 671 and Econ 672) courses in the first year of the program. The normal load is three courses per semester. These students must take the microeconomics and macroeconomics qualifying examinations for the first time shortly following the spring semester of the first year. Should it be needed, the second attempt will be completed in August preceding the second year. These students will complete 24 credits by the end of the first year in the program. Normal progress requires a cumulative grade point average of at least 3.0 in these courses.

Second Year

Students will take a total of at least nine credits of formal coursework in the fall semester, and at least nine credits of formal coursework in the spring semester. Students will have completed at least 18 of the required 21 hours of field courses and a minimum of 42 total credits by the end of the second year. Normal progress requires a cumulative grade point average of at least 3.0 in all courses to this point.
### Third Year

Students take the third year workshop courses, Econ 694A in the fall semester and Econ 694B in the spring semester of their third year. Students who have not completed all field course requirements take the number of credits needed to do so during the fall or spring semester of the third year. Students must complete and submit the third year paper and register for three credits of Econ 691. To make normal progress, they must receive a satisfactory grade on the third year paper before the beginning of the fall semester of their fourth year. Students spend most of their time on dissertation research and register for an appropriate number of research credits (Econ 699) each semester. Students should choose a major professor by October 1 and the rest of the POS committee by December 1. The POSC will be electronically filed by December 1. Students making normal progress complete all field requirements by the end of the fall semester of the third year. Normal progress requires a cumulative grade point average of at least 3.0.

### Fourth Year and Beyond

Ph.D. students must complete the preliminary oral exam by June 1 of their fourth year in the Ph.D. program in order to be eligible for funding for the fall semester of the fifth year. A cumulative grade point average of at least 3.0 is required in order to graduate.

**Total Graduate Credits Required**

Minimum of 72. All coursework must be completed with a 3.0 GPA or higher in order to graduate.

* Summer credits for Econ 699 are optional. Students should be engaged in research activities during summer months regardless of whether they are enrolled in Econ 699.

** Occasionally due to scheduling constraints, students require an additional semester of coursework in order to complete two fields of concentration.

**Funding**

Students who obtain university support for their graduate education in the form of teaching or research assistantships receive direct and indirect benefits from the university. The most important indirect benefit is the Graduate College tuition scholarship. Other benefits may include better access to equipment and research materials. Thus, those on assistantship are different than other university employees and graduate students. The Department policy concerning reappointment eligibility for teaching or research assistantships requires that the following criteria be met:

1. Satisfactory completion of the prior appointment duties and responsibilities;
2. Satisfactory academic performance as defined in this document is achieved;
3. Satisfactory academic progress (normal progress as defined in this document) is accomplished;
4. Satisfactory behavior in compliance with the ISU Student Disciplinary Regulations is maintained;
5. The maximum length of time on appointment as defined by the Department in this document has not expired;
6. Continuation is always contingent on the availability of funding.
Economics Ph.D. Student Funding

Graduate assistantship appointments are administered by the Economics Graduate Studies Office. Determination of the specific assistantship appointment is based upon a number of factors including departmental needs, faculty needs, student interests, and funding availability. Requests for changes in assistantship appointments should be initiated through the Director of Graduate Education.

1. Students admitted to the Ph.D. program with funding will be given priority for assistantship support for a total of five academic years from initial registration. Students who have completed two or more years in the program will almost never be continued on assistantship support unless they are meeting normal progress requirements. Support for a sixth year may be available in rare cases and is dependent on a number of factors including exemplary performance of duties, availability of funding for a specific project, department needs, and normal progress toward the degree. Any student who has not completed a preliminary oral examination will not be supported beyond four years.

2. A student who does not satisfactorily complete a third year paper by August 1 entering the fourth year in the Ph.D. program will not be funded for that fall semester. Funding can be reinstated for subsequent semesters if the third year paper is successfully completed by December 1 of the fourth year. Ph.D. students receive a stipend raise following the completion of their third year paper. Students who do not complete the third-year paper by this date will generally no longer be considered a Ph.D. program candidate and will be given the option to complete the M.S. degree program.

3. A student who does not satisfactorily complete a preliminary oral examination by June 1 after the fourth year in the Ph.D. program will not be funded for the fall semester. Funding can be reinstated for subsequent semesters if the preliminary oral is successfully completed by December 1 of the fifth year. Ph.D. students receive a stipend raise following the completion of their preliminary oral.

4. Students initially admitted to the Ph.D. program who start with the M.S. core will be required to achieve a GPA of 3.0 or better in Econ 500, 501, 502, and 571 in order to be eligible for renewal of funding beyond the first year.

5. Ph.D. students who receive funding from the department are discouraged from seeking additional employment outside the assistantship. Such outside commitments can hinder normal academic progress and can affect the performance of assistantship responsibilities. Students who find jobs in addition to their assistantship are still required to meet normal progress requirements in order to qualify for departmental support.

Ph.D. Co-Major Student Funding

In the case of students pursuing a Ph.D. with a co-major in economics or agricultural economics and another field, it is the expectation that the Economics Department and the co-major department or program will both contribute to the teaching or research assistantship funding of the student. The co-major Ph.D. student will be given priority for assistantship support from the Economics Department for the equivalent of three academic years with the possibility of a fourth. Support for the fourth year is dependent on a number of factors including exemplary performance of duties, availability of funding for a specific project, and normal progress toward the degree. For a co-major student, normal progress requirements (for renewal of assistantship) will be determined by the Director of Graduate Education on a case-by-case basis and will be communicated to the student in writing.

Student Grievance Procedures

The Department of Economics strives to be a welcoming place for students and faculty with different backgrounds and diverse opinions. If there is ever a time when a graduate student feels that his or her personal, academic, or professional integrity is not being respected fairly, the student is encouraged to first speak to their adviser or major professor(s). If the issue is not resolved or involves the major professor(s), all efforts should be made to contact the Economics Department Director of Graduate Education. Pursuant to these actions, the Graduate College Handbook outlines a student grievance procedure that offers several options for conflict resolution.

Leave and Absence Policy

Graduate Assistants have an important role in the work of Iowa State University, and their campus presence is important to the operation of the department. Absence from campus must be discussed in advance with the instructor of the course to which they are assigned (TAs), the help room coordinator (TAs - if applicable), and/or faculty members for whom they are working (RAs). Graduate Assistants who are absent without prior approval risk loss of pay and potential loss of eligibility for future funding, at the discretion of the Director of Graduate Education. Additional penalties (including possible loss of eligibility of future funding) may be incurred depending on the circumstances.
1. **Fall semester:** Teaching assistants will be available for duties beginning on the Wednesday prior to the start of classes for fall semester. At the end of the semester, TAs are available through grading of final examinations and submission of grades. TAs who are not available during these times will generally have their salary reduced in proportion to the time they are absent.

2. **Spring semester:** Teaching assistants will be available for duties on the Thursday prior to the start of classes for spring semester. At the end of the semester, TAs are to be available through grading of final examinations and submission of grades. TAs who are not available during these times will generally have their salary reduced in proportion to the time they are absent.

3. **Research assistants:** Research assistants will be available for duties throughout the duration of their appointment. Research assistants need to check with their supervisors for their responsibilities, if any, during semester breaks. RAs who are not available during these times will have their salary reduced in proportion to the time they are absent.

4. **All graduate students:** Any graduate student planning to be away from campus in excess of one week while school is in session, regardless of appointment status or assignment, must notify Amy Emmett (abainum@iastate.edu) and provide contact information for the period of leave. This information should be provided as soon as leave arrangements are made and approved by the instructor, help room supervisor, or RA supervisor.

### Graduate Student Travel

#### Travel Policy

1. PhD students will be reimbursed travel expenses for a total of up to six approved professional meetings or workshops during their PhD program. Travel should be conducted with the intention of furthering a student’s program of study and enhancing his or her education. In rare cases, additional trip funding may be granted for students who have exceeded the six trip funding allotment. All exceptions will need to be approved by the DOGE and the Graduate Student Programs and Policy Committee (GPPC) BEFORE travel is undertaken.

2. MS student travel reimbursement is rare. Applications for MS travel funding will be considered on a case-by-case basis.

3. Requests for funds must be submitted using the Department of Economics Graduate Student Travel Form **BEFORE** travel is undertaken. Post trip requests are subject to denial or to lower rates of reimbursement.

4. Students who attend an approved professional meeting, workshop, or other approved event will be reimbursed up to $375.

5. Students presenting original research (may be co-authored) at an approved meeting, workshop, or other approved event will be reimbursed up to $750. Poster presentations do not qualify for this additional funding.

6. Students applying for a Professional Advancement Grant (PAG) should follow the instructions on the Graduate and Professional Student Senate (GPSS) website. Link to the PAG application: [https://www.gpss.iastate.edu/pag](https://www.gpss.iastate.edu/pag)

7. All trip receipts, including proof of conference or meeting registration, must be submitted to finance_delivery@iastate.edu when you return from your trip to receive reimbursement up to the preapproved amount. This includes funding from all sources – Economics, CARD, Professional Advancement Grants (PAG).

8. For international travel, it is strongly recommended that students enroll in International Health Insurance and Emergency Service ([https://www.riskmanagement.iastate.edu/insurance/international](https://www.riskmanagement.iastate.edu/insurance/international)). This is provided by the university at no-cost to the student.

9. If you have questions, contact Amy Emmett, 294-2702, abainum@iastate.edu or finance_delivery@iastate.edu before you travel.

#### Travel Guidelines

To simplify and expedite the travel reimbursement process, following are some guidelines to help you with travel planning. **Paying expenses on behalf of another traveler is strongly discouraged.** It is preferable to have each individual pay for and claim their expenses separately. If you do submit shared expenses, no one will be reimbursed until receipts from all students involved have been received and payment to each other has been proven by way of a copy of your credit card statement, cancelled check or bank transfer. If lodging/airfare is purchased through Hotwire, Priceline, or a similar vendor, you will need to prove payment from one student to another. The Economics Department has the right to refuse payment to any student submitting suspicious documentation or students who are uncooperative regarding the implementation of these rules.
1. **Lodging**: If you share a hotel room with another student(s), have the charges split at the hotel desk and submit your individual itemized receipts. If you do not, ISU Accounting will require proof of payment to the hotel or to the other student(s) as described above.

2. **Car Rental**: As with lodging, if you share the cost of car rental, ISU Accounting will require proof of payment to the other student(s) or to the rental car company by way of a copy of your credit card statement, cancelled check or bank transfer. Gas for rental cars can be reimbursed only if receipts are submitted (this is department policy.) ISU has contracts with Enterprise and National which include coverage for CDW/LDW insurance. If you use other agencies, you should purchase the CDW/LDW coverage. Not all insurance is reimbursable. Rent the vehicle “to Iowa State University, by … (your name).” See the [Procurement Services](#) and [Risk Management](#) websites for additional information.

3. **Mileage**: If you choose to drive your personal vehicle, a per mile reimbursement can be requested by the vehicle owner. You cannot claim mileage and car rental/gas for the same portion of the trip. If the mileage claimed is greater than 400 miles one way, a fly versus drive comparison must be completed prior to the trip.

4. **Meals**: Department policy requires that graduate students submit individual *itemized* meal receipts which show what was purchased. Receipts which only list the total dollar amount without details will not be reimbursed. If meals are part of the registration fee, you will not be reimbursed if you choose to eat that meal somewhere else. The university’s maximum domestic meal reimbursement is $40 per day.

5. **Airfare**: If you elect to travel from an airport other than Des Moines, you must print and retain a price comparison from Des Moines dated the day of purchase. You must be able to verify that there was a cost savings when including any additional lodging, meals, and mileage to/from the alternate airport.

6. **Combing Business and Personal Travel**: When vacation or personal travel requires an air ticket that does not have a direct route to your business destination, you must obtain a comparison *on the date you purchase your ticket*. The comparison must be submitted with your reimbursement request. Reimbursement is capped at the lower of the two quotes.

7. **Link to allowable expenses table at Controller’s website:**
   [http://www.controller.iastate.edu/travellinformation/allowableexpenses.htm](http://www.controller.iastate.edu/travellinformation/allowableexpenses.htm)
Appendix A: Fields of Concentration

I. **Agricultural Economics** (Balistreri, Choi, Crespi, DePaula, Gallagher, Hallam, Hart, Hayes, Huffman, Jacobs, Lawrence, Lence, Moschini, Plastina, Schulz, Zhang)
   Required: Econ 641 Agricultural Economics I
   Econ 642 Agricultural Economics II

II. **Applied Econometrics**: Available as a third field only. (Bartalotti, Bunzel, Crespi, DePaula, Huffman, Kedagni, Kreider, Zhylyevskyy)
   Choose Two: Econ 673 Microeconometrics
               Econ 674 Macroeconometrics
               Econ 675 Advanced Topics in Econometrics

   To fulfill the requirement for this field, students must complete 2 of 3 courses listed above.

III. **Environmental and Resource Economics** (Balistreri, Hoffman, Moschini, Weninger, Zhang)
     Required: Econ 581 Advanced Environmental Economics
               Econ 680 Advanced Resource Economics

IV. **Financial Economics** (Hayes, Lence, Li, Singh, Zhylyevskyy)
    Required: Econ 653 Financial Economics

    Choose One: Econ 537 Commodity Markets: Analysis and Strategy
               Econ 657 International Finance

    To fulfill the requirement for this field, students must complete Econ 653 and one course from the others listed.

V. **Industrial Organization** (Balistreri, Crespi, Hallam, Kim, Li, Moschini, Turhan, Weninger)
   Required: Econ 615 Theoretical Industrial Organization

   Choose One: Econ 616 Empirical Methods in Industrial Organization
               Econ 618 Game Theory
               Econ 642 Agricultural Economics II

   To fulfill the requirement for this field, students must complete Econ 615 and one course from the others listed.

VI. **International Economics** (Balistreri, Choi, Hayes, Lence, Lyn, Moschini, Singh)
    Required: Econ 655 International Trade
               Econ 657 International Finance

VII. **Labor/Public Economics** (Bartalotti, Harris-Lagoudakis, Hoffman, Huffman, Kim, Kreider, Orazem, Rosenbloom, Turhan, Winters, Zhylyevskyy)
     Required: Econ 520 Labor Supply and Human Capital Formation

     Choose One: Econ 510 Experimental Economics
                 Econ 521 Labor Markets
                 Econ 545 Public Economics
                 Econ 576 Spatial Economics

     Recommended: Econ 673 Microeconometrics

     To fulfill the requirement for this field, students must complete Econ 520 and one course from the others listed.

VIII. **Macroeconomics** (Bhattacharya, Bunzel, Cordoba, Singh)
     Choose Two: Econ 606 Advanced Topics in Macroeconomics
                 Econ 657 International Finance
                 Econ 674 Macroeconometrics

     To fulfill the requirement for this field, students must complete 2 of the 3 courses listed above.
